Occupation/Work History (25 word limit):

I have held several Supply Chain leadership roles within local area hospitals. My focus has been on financial and operational excellence.

Most Recent Political/Community Experience (25 word limit):

I have worked as a campaign treasurer, canvasser, and in strategic roles for city council and state representative races over the past few years.

Are you, or have you been, affiliated with a local or state chamber of commerce? If yes, list the chamber.

Through my employer, I have been associated with the Olathe Chamber of Commerce.

Are you, or have you been, affiliated with any other business organization(s)? If yes, list the organization(s).

In addition affiliation with my employers, I am the principle for West 47th Terrace Properties, LLC. Currently, there are no current activities managed by the organization. West 47th Terrace Properties, LLC. is a rental property management organization.

As a candidate, what are your top three policy issues (25 words per line)

1. Assure that WaterOne has a robust plan to affordably finance and implement sustainable and resilient infrastructure to meet the needs of the future.
2. Assure that WaterOne continues to meet and exceed water quality standards as determined by governmental and industrial standards and best-practices.
3. Assure that WaterOne always acts in the best interest of its rate payers and is a good steward of the environment.

Why are you seeking to serve on the Water District Board?

I am seeking a position on the WaterOne Board to add a fresh perspective to WaterOne governance. My education and experience will compliment and add to the current board. My background working for large complex hospital systems focused on providing services for the betterment of the health of our communities is consistent with the public need for affordable,

high-quality water. WaterOne will benefit by adding a board member who has professional background strategically weighing the resource needs of end-users with the resource limitations that are inherent to any organization. I see a lot of strategic and operational parallels.
