**As a candidate, what are your top three policy issues** (25 words per line)

1. A high quality safe reliable water supply is very important to our community. WaterOne must use technology and a qualified staff to continuously improve our treatment and delivery of water to your homes.
2. WaterOne must maintain and replace infrastructure for our existing customers while being prepared for growth. We do this through long range planning for our customers.
3. WaterOne must continue to ensure that we are financial stewards of our customers' resources committed to the affordability of water while also operating in a sustainable manner.

**Why are you seeking to serve on the Water District Board?**

Johnson County is an incredible place to live and raise a family. One of the reasons people live

here are the services available. One of these services is water. During my time on the Board, I have learned much about water and what it takes to provide reliable high-quality water. As a Certified Public Accountant, I have used my background to work with the Board and staff to deliver high-quality water, maintain and replace the older infrastructure, manage growth, provide the customer service you expect and operate in a sustainable manner with the lowest water cost in the metro area.
