North East Johnson County Chamber Past Member: Greater Kansas City Chamber of Commerce
Hispanic Chamber of Commerce

Are you, or have you been, affiliated with any other business organization(s)? If yes, list the organization(s).

N/A

As a candidate, what are your top three policy issues (25 words per line)

1. We need to minimize Missouri and Kaw river dredging permits that can cause river bed degradation, harm wildlife, and challenge water treatment processes at WaterOne.
2. We need to eliminate harmful algal blooms at Milford/local lakes and strategically test for PFAS, harmful chemicals, and remove them from our water supply.
3. We need to empower our community with information and resources to use their water supply sustainably and we need to keep water prices low.

Why are you seeking to serve on the Water District Board?

I'm running because we can't take our water for granted. Climate Change is the defining issue of our time and it affects our water quantity and water quality. We need to protect our water sources and ensure our community has clean water to drink. I am the only Certified Public

Water Official running for office. I also have community board experience and an Executive MBA from Washington University in St. Louis. We need active leadership on the board who will look out for the rising risks in our water supply. Vote Whitney for Water on Nov. 5th
